***Be there when our Operations Committees' events convene - offering opportunities for learning, best practice sharing and networking:***

- The members of the EAP's Gas and Electric Transmission & Distribution Committee and the Electrical Equipment & Protection Committee are working on providing valuable content for your company's OPERATIONS personnel during the educational sessions - with speakers and presentations of interest to the industry
- The Committees incorporate sessions relevant to professional practice which would qualify for the PA Professional Engineers continuing education credits requirements
- Take advantage of valuable networking at the events activities
- For utility representatives, closed session best practice roundtables are a typical feature
- A vendor expo feature will showcase the latest technology, state-of-the-art products and services, trends and best practices. Exhibitors: consider marketing your company's products/services to utility company operations representatives
